APPLICATION DEVELOPER – FULLTIME: 100% (40h/WEEK)

INTRODUCTION

An employee at NorrLab comes in all shapes, forms, and personalities – but one thing that's for sure is the even if we spread out across the globe, we're one NorrLab. International relations, challenging tasks and solving the assignments in a new and innovative way, as well as working close together with other people and have fun – these are just some of the things we can offer you.

COMPANY DESCRIPTION

NorrLab works with parametric configuration. We develop rules-based software solutions to draw spaces in 2D and 3D for leading companies within the commercial furniture and material handling industries. In the background, prices and possible configurations are automatically calculated. We are a Swedish company with customers in Europe and North America. NorrLab has its headquarters in Malmö (Sweden) and a small office in France. Our unique expertise places us at the forefront of Space Planning and product configuration solutions. We bring a large business value for our customers, but we also thrive on challenging ourselves and grow as programmers and individuals.

WHAT WE OFFER YOU

We're looking for someone who translates ideas into practice and enjoys programming, NorrLab is full of new ideas and innovation. Programming has a central role throughout the company. We work in teams where we seek individuals who take personal responsibility to achieve good team spirit and deliver on time.

If you want to work for a company with Swedish roots and genuine care for its employees, this position could be for you. As we are growing with new customers, visits to their locations at least once a year would be necessary. The position is based at our Malmö office, but we are proud of our way to handle remote teamwork and strong work enthusiasm among our talented employees.

As an application developer you will be a part of our production team and work in different customer projects. You will be part of an experienced team and you will have a team leader who you will work closely with initially.

NORRLAB

APPLICATION DEVELOPER – FULLTIME: 100% (40h/WEEK)

In the future, there is room to grow within the company with leadership roles for projects and customer responsibility. Thanks to the unique CET Platform that we work with, overhead time is kept to a minimum. You receive immediate feedback on your changes, i.e. spend less time waiting on compiling and more on testing your ideas and have fun.

WHO WE BELIEVE YOU ARE

We don't know where the best ideas are born but we believe you have them and at NorrLab, they're always welcome. We believe you are at the beginning of your career, with a burning interest in programming and desire to develop. To be successful as an Application Developer, you should be a communicative and mature person who is driven to deliver with quality. You enjoy working with others, but you also like to put on your headphones and disappear into the code sometimes.

QUALIFICATIONS & COMPETENCE

Education:

Minimum qualification: Bachelor's Degree in computer science or equivalent

Requirements:

- Passionate about programming
- Good knowledge and experience in C++, C#, java, or any other object-oriented language
- Good written and verbal English communication skills
- Quality minded
- Excellent analytical and problem-solving skills
- Must be a self-starter and can work independently on diverse problems
- Mother tongue or high level of Swedish

We are reviewing applications on an ongoing basis so send yours + cover letter directly to oskar.haldemar@norrlab.com , or call +33 787 30 63 45 if this feels like your kind of challenge!

We look forward hearing from you!
